Master Model Railroader #401 William "Bill" McMillan

It is with great sadness that this information must be shared. On Tuesday, July 24, 2012, the hobby lost a valued friend and mentor. Mr. William "Bill" McMillan ended his journey on earth at the age of 85. Bill was an avid HO scale model railroader building his Ma & Pa layout and an On30 module, both to the highest degree, helping him to earn MMR status. Bill will be greatly missed by many.

McMILLAN, William A. Sr., of Midlothian, Master Model Railroader #401, peacefully joined his beloved Carola on July 24, 2012. He was a Congressional Liaison for the Dept. of the Navy, continuing work upon retirement as a private consultant and pursuing his love of model railroading. Bill was a life member of the NMRA, active in the JRD, the Ma & Pa Historical Society and various local groups. He is survived by his son, Artie McMillan; his daughter, Sue McMillan; and his two granddaughters, Alex and Tyler McMillan.
